Education

Tufts University

BS in Computer Science Candidate

GPA: 4.0

Relevant Courses: Algorithms, Data Structures, Machine Structure and Assembly-language Programming, Network Security, Linear Algebra, and Web Programming

Expected graduation May 2028

Skills

- **Languages:** C#, SQL, Python, C++, JavaScript, HTML, CSS
- **Frameworks & Tools:** .NET/ASP.NET Core, Node.js, Flask, MongoDB, React, Tailwind CSS
- **Version Control & Concepts:** Git, Object-Oriented Programming (OOP), REST APIs

Experience

Developer

JumboCode

Medford, MA

October 2024 - May 2025

- Engineered a Node.js backend for a non-profit educational platform, enabling secure enrollment and user management.
- Designed a MongoDB database schema and built RESTful APIs for seamless, low-latency data communication.
- Collaborated with a 10-person agile team, utilizing Git for version control and code reviews.

Winner – Down the Rabbit Hole Track

JumboHack Hackathon – Tufts University

Medford, MA

March 2025

- Collaborated with a 6-member team to build a Python and Flask-based chatbot prototype for academic advising within 48 hours.
- Integrated the Microsoft Graph API to securely fetch institutional data and automatically draft advisor email responses.

Projects

Satisfactory Factory Planner

May 2026

- Developed an ASP.NET desktop API in C# to calculate resource logistics and multi-stage production efficiencies.
- Engineered a robust JSON parsing system to dynamically extract and manage nested game data.
- Applied advanced C# architectural patterns to manage complex logistical states and exposed results via REST APIs.

Additional Experience & Leadership

Athlete - Tufts Emen Ultimate Frisbee

Fall 2024 - Present

- Selected for the university's premier ultimate frisbee team, competing nationally against top collegiate programs.
- Balance a 4.0 GPA with a 15+ hour weekly commitment to rigorous practices, film review, and tournament travel.

Lifeguard

Dodge YMCA

Brooklyn, NY

Summers 2023-24-25

- Ensured patron safety at a high-traffic aquatic center through continuous surveillance and hazard identification.
- Demonstrated reliable performance over three seasons, trusted to open and close the facility.
